FILE HEADING

Water Supply and Drainage Schemes for the Shimoga Town

From

The Secretary to Govt of H H the Maharaja of Mysore P W D

P No 354-161 / 2275 82 Dated 24 3 1909 Received 25 3 1909

Diary No 696	Enclos	Spare Copies	Serial No 6

BRIEF ABSTRACT OF LETTER

Forwards a copy of the Govt order passed on the P.W.D sanctioning two projects viz one for carrying out the new extensions of the Shimoga town and the other for water supply to the old town and proposed extensions amounting to Rs 66,150/ and Rs 65,592/- respectively

NOTES AND ORDERS

As regards the drainage project attention is invited to para 3 of the above order.

2- The entire cost of the Scheme relating to the Extensions will be borne

Notes—First sheet

by borne by Govt and that of the Water Supply Scheme by the Govt & the Municipal Board in equal proportion, the Municipal quota of the Cost being treated as a loan carrying interest at 4% per annum and repayable with interest in due time. This order does not fix the maximum number of years in which the loan has to be liquidated. This point has to be settled before the President can execute the usual Agreement. Further, towards for the liquidation of the loan a specific item of Mun revenue has to be set apart

9 7 To the President of the Municipality, Shimoga Dt. No. 10287 & 14-4-09

Enquires in how many years the Municipal Council of Shimoga would agree to repay the loan with interest and what definite source or sources of revenue they would set apart for this purpose.

16 8 From the President of the Municipality, Shimoga Dt. No. 7 & 7-7-09.

Submits with reference to the above, the Municipal Council's resolution agreeing (1) to repay the loan in 30 annual instalments and (2) to set apart the receipts from

(i) tolls estimated at Rs 6000 per annum and (ii) water-tax to be levied hereafter for meeting the annual recurring charges on account of the maintenance charge of the water-works and the repayment of the loan with interest thereon

9 Submitted for orders. The Municipal Board of Shimoga propose to repay the loan 14/7 of Rs 32,800 (Half of the cost of the water supply project amounting to Rs 65,592) in 30 years. But under Govt order No. 11541-50/L & 262-96 dated 14th April 1899 the maximum period fixed for repayment is only 20 years. If the loan is ordered to be paid in 20 equal

(W)

NOTE—Contn. sheet.

GPB—50,003—18-3-08

Serial No

instalments the annual recovery including interest should amount to Rs 32800 X ·07358 or Rs 2414. The Muni Board ~~having~~, however, overestimating the annual payment, seem to be prepared to pay Rs 2300 or Rs 114 only less than what should be recovered every year. The extra charge on account of the maintenance of the water works and the repayment of loan thus amounts to Rs 7214

500 Maintenance
300 Depreciation
414 Loan
214

10. Towards this expenditure the Board propose to set apart the income from tolls amounting on the average to Rs 6000 a year and the water tax to be newly imposed on the houses in the town at 25% of the house tax. The income from the latter source may be safely taken to amount to Rs 1000 a year, as the average realization from house tax during the past 4 years amounts to Rs 3800 So the income from the two items of taxes will amount to at least Rs 7000 and will in all probability be sufficient to meet the extra liability

11 The point for consideration in this connection is whether the Muni Board can really keep up the expenditure within the income realized from all sources except Tolls and water-tax On a perusal of the budget for 1909 10 it is seen that the income of the Minority minus that from Tolls (10 000) and

sheet

Serial No

water tax ~~(not yet imposed)~~ is Rs 15,020 while the expenditure including

(1) Rs 500 for the repayment of an existing loan and (2) Rs 12,500 for Public Works

is Rs 28,191. The expenditure of the Munlty even without any outlay on Public Works thus amounts to Rs 28,191 - 13,000 = Rs 15,191 or Rs 171 more than the income at the disposal of the Board

12 In an important Munlty like Shimoga it is impossible to imagine that ~~the expenditure~~ its affairs can be managed for 20 years without incurring any outlay on Public Works For the repair of roads alone the annual outlay should be at least Rs 3000 and for other important and urgent works a sum of at least Rs 2000 will have to be allowed So the minimum expenditure of the Munlty may be fairly taken at Rs 15,691 + 3000 + 2000 or Rs 20,691 or say roughly 21,000 Rs The income from all sources except Tolls and water-tax is about Rs 15 000 and that from Tolls on the average is admitted in the President's letter under disposal to amount to Rs 6 000 only So the income from all sources except water tax can only amount to Rs 21,000 which is equal only to the minimum expenditure to be incurred by the Board apart from the extra charge of Rs 7,214 above referred to

sheet

Serial No

13 It has not been reported what increase can be expected from the imposition of taxes on buildings under Regulation VII of 1906 instead of under the Mohatarfa rules as at present. It is not also explicitly stated whether the average income of Rs 6000 stated to be realised from Tolls includes the Muni share of income from the Tramway. If it is not included, the ~~lower~~ amount realised from the tramway will also be available for the special purpose proposed. If the income from the two sources is not sufficient, the Board will have to impose lighting tax and enhance the rate of the proposed water tax.

14 In this connection one more point seems to deserve consideration. According to the budget for 1909-10 the closing balance in favor of the Munsity is 17,678 including ~~an~~ repayable ~~unspent~~ loan of Rs 4,000 The maximum closing balance to be reserved for working purposes is only 30 per cent of the receipts (25,020) or only Rs 7,506 So it is seen that the funds of the Munsity amounting to Rs 6,272 are locked up in the Treasury without any interest. In these circumstances it appears best to discharge the balance of the loan the Munsity has at present contracted and also to reduce

e end of 1909-10

the amount of the probable fresh loan from Rs 32,800 to Rs 32,800 - 6272 or Rs 26,528 or say Rs 27,000 in round numbers By this arrangement the Municipality will save payment of interest on a sum of Rs 9,000 at 4 per cent or Rs 360 a year. If this is agreed to by the Board, the annual recovery for the repayment of the loan will have to be fixed at Rs 27,000 x 07358 or Rs 1987 every year The extra income to be found to defray the maintenance charges of the water works and to the repayment of the loan will thus amount to Rs 6787* instead of Rs 7100 as estimated by the Board

3500
on 1300
Loan 1987 *

17 To the President of the Municipties, Shimoga District

Observes that the excess over the prescribed maximum balance in favor the Shimoga Mty may be utilized in repay in full the balance of the loan advanced to the Municipty on account of acquisition of properties for the Durgigudi Extension. () in paying at once a sum of Rs 5,800/- towards the moiety of the cost of the water project debitable to the Municipty thus reducing the loan required to Rs 27,000, that the loan has to be repaid to Govt in 20 equal annual instalments, that the

sheet

GPB—50 000—18 5 08

Serial No

proposed to be set apart for the repayment of the loan &c, would be just enough for the purpose, that the latter proposal can be sanctioned only in case the income from all existing sources except tolls is sufficient to meet the present expenditure, that the details shown in the current year's budget ~~do not~~ show that the income is sufficient to meet the present expenditure on all items except repayment of loan and public works, and enquires (1) how the Municipl Council would meet the annual cost of roads & other public works if they should set apart the income from tolls for repayment of the loan unless they find other sources of income (2) what increase, if any, may be expected from the levy of a tax on buildings under Regn VII of 1906, and (3) whether the sum of Rs 6,000/- stated to be the annual average income from tolls, includes the income ~~to~~ from tramway and what the average annual income on the latter account would amount to

18 From the Presdt of the Municipties, Shimoga District No 588, 24-9-09. Submits a copy of the Shimoga Municipl Board's resolution and states (1) that no appreciable increase of revenue can be expected from the levy of a tax on buildings under Regn VII of 1906 (2) that the income of Rs 6,000/- from Tolls does not include the in-

Contd sheet.

Serial No

from Tramways and (3) that the income from Tramways averages Rs 2,500 per annum.

The Municipal Board have resolved:—

(1) to reduce the closing balance in favor of the Municipality to 30 per cent of the receipts,

(2) to pay up the balance of Rs 4,500 of remaining unpaid out of the loan advanced to the Municipality in 1905;

(3) to pay away a sum of Rs 500 of. towards the Municipality of the cost of the water-supply scheme debitable to the Municipality. and to obtain a loan of Rs ~~2,000~~ 2,000/— only repayable in 20 equal annual instalments;

and (5) to impose no additional taxes.

Submitted for orders

The Municipal Council have estimated the annual receipts at Rs 25,065 and have thought of sustaining the annual expenditure to that amount - It does not seem likely

Note—Contn sheet.

that they can maintain this equilibrium long when they themselves admit that what is proposed to be spent on roads and drains is quite insufficient to meet the requirements on account of them and that additional expenditure will have to be incurred for the acquisition of houses and the improvement of the town and for the conservancy and lighting of the extensions. Fresh sources of income will therefore have to be found though the Council is now opposed to the imposition of any additional taxes. The proposals may however be accepted for the present. PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS Town of

THE MAHARAJA OF MYSORE

P.W.Department.

Reading:

(1) Letter No. 2582 dated the 23rd December 1908, from the Sanitary Commissioner in Mysore, forwarding for orders a project amounting to Rs. 66,150/- for laying out the extensions proposed for the Shimoga Town, together with a copy of the resolution of the Central Sanitary Board on the subject.

(2) Letter No. 2580 of the same date from the Officer forwarding another project amounting to Rs. 68,592/- for the water supply to the same town, together with the resolution of the Central Sanitary Board on the subject.

---------ooooooo---------- ml 85-08 ll-6

No. 354-61 / 2275-82 Dated Bangalore 24th March 1909.

ORDER THEREON.- The question of improving the sanitation of the town of Shimoga has been long under consideration, and, with a view to arrive at a decision on this important matter, the Dewan held a conference at Shimoga on the 27th September 1907 at which the Sanitary Commissioner, the Deputy Commissioner, the Sanitary Engineer and the leading inhabitants of Shimoga were present. It was then considered that it was impracticable to materially improve the sanitation of the old town and that the best course was to open out extensions towards the high ground away from the river, so that by affording facilities to the people to resort to the extensions the old town might eventually be abandoned. Orders were accordingly issued fo the preparation of the necessary plans and estimates.

2. In accordance with these orders, two projects have been prepared, viz, one for the laying out of the new

extensions

extensions and other for water supply to the old town and the proposed extensions; and Government are pleased to sanction those projects for Rs. 65,150/- and Rs. 85,592/- respectively. The works will be carried out gradually as funds are available. They may however be started at once, as there is provision for them in the current year's P.W.Budget in which Rs. 10,000 and 20,000 have been allotted respectively for those works.

3. The old town is ultimately to be abandoned and therefore it is not proposed to have any drainage scheme for it, and as far as the new extensions are concerned there is no immediate necessity for considering this question in its entirety at present. The configuration of the country is such that simple surface drains to carry off the storm water and the water from the hydrants to a suitable outfall in the paddy fields below, are all that are required for the present as stated by the Central Sanitary Board, and no elaborate drainage scheme is necessary.

4. The Central Sanitary Board recommend that in the interests of sanitation water should be supplied in only a very limited manner to the old town, so that the inhabitants may be induced to shift to the healthy extension sites. This recommendation is approved by Government, in view of the ultimate abandonment of the old town.

5. In the case of laying out the extensions the entire cost will be borne by Government, and as regards the water supply project, half the cost will be given by Government as a grant-in-aid and the other half will be advanced as a loan carrying interest at 4 per cent. The Deputy Commissioner, Shimoga District will take the necessary steps,

for

for obtaining the necessary agreement from the Shimoga Town municipality for the repayment of the loan with the interest in one time.

To The Presdt of Musts in the Shimoga District

Date of issue 6.8.09

Signed by Mr. K M

Sir,

I am directed to acknowledge the receipt of your letter no 7 of the 7th July 1909 anent the repayment of the loan sanctioned for the water supply project of the Shimoga Town and to convey the following observations and remarks for the further consideration of the Shimoga Municipal Council

over

SUBJECT

MSU 3/9

2. 11 ~~According to the budget for the year 1909-10, the Shamoga Municipality will have a closing balance of Rs 17,678 under Govt order no Ft 6 961-70/157 dated 8th December 1909, the maximum and minimum balances~~ X to be reserved are 30 and 25 per cent of the receipts. The estimated receipts of the Municipality for the year 1909-10 being Rs 25,020, the maximum closing balance to be reserved is Rs 7,506. It seems therefore that the amount of the closing balance in excess of this sum may well be utilized (1) in completely discharging the balance of Rs 4500 which remained outstanding on the 1st July 1909, in respect of the loan sanctioned for acquiring lands in the Durgigudi Extension and (2) in paying at once

X

List of enclosures

(Continuation Sheet draft form)

a sum of Rs 5,800 towards the moiety of the cost of the water-supply project, debitable to the Shimoga Municipality viz Rs 32,800. The loan from Govt, which in that case the Muni council will require, will be reduced to Rs 27,000

3. The Muni Council propose to repay the loan with interest at 4 per cent per annum in 30 years But under Govt order no 11541-50/ L.F. 262-96 dated 14th April 1897 the maximum period allowed for the repayment of a loan is only 20 years. If, as suggested above, the loan is reduced to Rs 27,000 and the Sub C ~~it is~~ agree to repay the same ... 20

Obligation [illegible]

13

equal annual instalments, the amount of each instalment will be Rs 27,000 x .07358 or Rs 1987. Adding to this the charges on account of water supply maintenance and depreciation, estimated at Rs 3500 and Rs 1,300 respectively a year, the total extra expenditure devolving ~~on~~ the Muni Council on account of water-supply will be Rs 6787 per annum. The income from tolls (Rs 6000) and the water-tax (about Rs 1000) to be levied at 25 percent of the tax on buildings in the Multy, which the Muni council propose to set apart for meeting this extra charge, will be just enough ~~to do so~~ for the purpose in view.

4. The above proposal, however, can be accepted only if

14

G.R.S 27]

GENERAL AND REVENUE SECRETARIAT

(Continuation Sheet draft form)

"the income from all existing sources except tolls, is sufficient to meet the present expenditure. From the details furnished in the budget of the Municipality for the year 1909-10, it is seen that such income amounts to about Rs15,000 and is just sufficient to meet the present expenditure on all items except repayment of loans and Public Works In these circumstances I am to enquire how the Municipal Council will meet the cost of the annual repairs of roads - at least Rs 3000 a year - and of such other sum as may be

required for other Public Works,
if it should set apart the
income from tolls for meeting
the cost of water subsidy as
there will be nothing left
out of the receipts after
meeting the other charges
It is difficult to understand
how the Municipal council can
make the two ends meet
unless they find other sources
of income by the levy of
a lighting tax, the enhance-
ment of the rate of
the proposed water-tax and
other means.

5 I am also to enquire
what increase, if any, may
be effected from the levy
of tax on buildings under
Regulation VII of 1906,

To.

K S Chendrasekharaiyar Esqr B.A.B.L.
Secretary to Government,
General and Revenue Deptts

Sir,

With reference to your letter 1338 Ml 85-08-17 dated 6th August '09 making certain observations for the consideration of the Shimoga Town Municipal Council regarding the repayment of the loan sanctioned by Government for payment of a moiety of the cost of the water supply project of the Shimoga Town, I have the honor to state that the subject was placed before the Municipal Council which met on the 20th September '09 and to submit herewith a copy of their resolution on the subject.

2 With regard to para 5 of the letter under reply, I beg to state that no appreciable increase of revenue can be expected from the levy of a tax on buildings under Regulation VII of 1906. The income of Rs 6,000 from Tolls does not include the income from

Tramway which may be taken at Rs 2,500/- for the year as stated in the resolution

18

I have the honor to be

Read General and Revenue Secretary's letter No 1338/ ...l 85-08-17 dated 6th August '09, making certain observations for the consideration of the Shimoga Town Municipal Council regarding the repayment of the loan sanctioned by Government for payment of a moiety of the cost of the Water-Supply project of the Shimoga Town.

Resolution:— The following resolutions were passed:—

1) That as suggested by Government the closing balance at the credit of the municipality be reduced to 30 per cent of the receipts as prescribed by Government Proceedings No 6861-70/157 dated 8th December 89.

2) That the balance of Rs 4500/- remaining unpaid in

respect of the loan sanctioned in 1905 for lands for the Durgi Gas Extension be discharged out of the cash balance on hand.

(3) That a sum of Rs 5800/- be paid at once the moiety of the cost of the water supply project to the Shimoga Municipality, the remainder Rs 3?, being treated as a loan from Government in 20 years with interest at 6 per cent per annum.

(4) That the extra Expenditure amounting to Rs 67 as specified below be met out of the ordinary income

(1) Water supply maintenance charges Rs 3,5

2 — Do —— Depreciation charges Rs 1,300

3 Towards annuity in liquidation of debt Rs 1,98

Rs 6,78

5 Including a tax for water at 25 per cent of house tax to be imposed hereafter, the income of Municipality would be only Rs 25,065 as shown

(1)	Octroi	5100.
(2)	House tax	5000
(3)	Carriage tax	55
(4)	Tolls on carts	6300
	Do on manganese	2500.
(5)	Mohatarfa	2360.
(6)	Rents from lands and buildings	1500.
(7)	Miscellaneous	1000.
(8)	Water supply tax	1250
	Total	25,065

The Board was unanimously of the opinion that additional taxes could be imposed. A lighting was objected to on the ground that no special was provided for.

(6) The total expenditure will have to be Rs 25 —

referred to in resolution (4)) as against the budgetted expenditure of Rs 24191 for 1909-10. The only way of making both ends meet is to curtail expenditure as far as possible and to restrict it to actual needs. With this end in view, the provision usually made for roads, original and repairs, will have to be reduced from Rs 5000 to Rs 2000, that for buildings and water-supply, viz Rs 2000. and Rs 1500 respectively, will have to be struck out, and that for drains will have to be reduced from Rs 1500 to 500. The Council observe that the money available for roads and drains will be very small and quite insufficient to meet requirements. The Board also note that provision will also be required hereafter (1) for the acquisition of houses and improvement of the town, (2) for providing for the conservancy and lighting of the new extensions after they are completed

7. The future expenditure will be somewhat as follows:—.

		Sanctioned expenses for 09-10
(1) Water supply maintenance charges	3500.	"
(2) Do — Depreciation charges —	1300	"
(3) Annuity towards the repayment of loan.	1987	680.
(4) Head office charges —	716.	716.
(5) Collection.	1428.	1428
(6) Conservancy	9161.	9161
(7) Lighting	1620	1620
(8) Public works.		
(a) Roads original	1000.	1500.
(b) Do — repairs	1000.	3500
(c) Drains original }		1000
(d) Do — repairs }	500	1000
(e) Water supply original	"	1000
(f) Do [illegible]		

(g)	Building original 22 —	"	Sanctioned expenditure for 1909-10. 1000.
(h)	do. — repairs	— " —	1000.
(m)	Compensation	— " —	2000
(o)	Reserve	———	500. 500
(9)	Charitable grants	1000.	942.
(10)	Miscellaneous	1000.	1144
		24,712	28,191
